PLANT TOUR - GE AVIATION

**110 Algonquin Parkway
 Whippany, NJ 07981**

WEDNESDAY, OCT 15, 2008

5:30 PM DINNER 6:30 PM TOUR

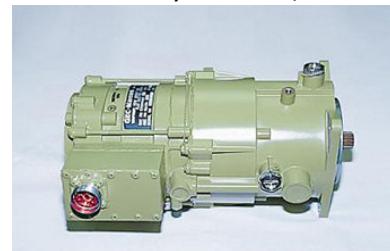

ASQ
 AMERICAN SOCIETY
 FOR QUALITY™

North Jersey

GE Aviation, Whippany is a manufacturing facility that makes electro-mechanical actuators that serve the aerospace industry. Our products are used on commercial and military aircraft, including; Airbus A380, Boeing 737 and 777, Boeing CH-47, Northrop Grumman Global Hawk etc.

The tour will include the machine shop, motor assembly and actuator assembly.

Tour highlights will include recent Lean / Six Sigma efforts:

Quality Clinic – A dedicated resource on the shop floor to drive relentless root cause analysis. This program is a joint effort with our customer UTC-Hamilton Sundstrand.

Global Hawk Manufacturing Cell Lean work out – A recent week long team effort, led by a GE facilitator of the new assembly cell.

Precision component production cells – The machine shop has recently installed several new gear producing machining centers to produce the precision gears required in our actuators.

Learn more at www.geaviationsystems.com/Products--/Mechanical-Systems/Electromechanical-Systems/index.asp

Note: Due to the nature of GE's contracts, visitors are required to be US citizens.

A nominal fee will be charged for the tour to support our fundraiser to send IE students from the Rutgers IE student chapter to the IIE Regional Student Conference.

Please advise us if you would like dinner when you signup.
